GREETINGS

1933

It is with great pleasure that I present you with my annual catalogue.

I have been greatly encouraged from year to year by increasing my customers, I had the largest output during the season of 1932. So I had to open up more land to take care of the business for this season. All this in spite of the depression.

The past season was very good for Dahlias on Cape Cod. As we had plenty of rain. I dug some of the largest clumps I have seen. My Gladioli also grew very large and I have a fine crop to sell cheap.

I have 200 new varieties of Dahlias, a lot I have not catalogued as I only have one or two clumps. I shall have a few plants to sell on the best of the Roll of Honor. Write me' your wants.

I wish to thank all my customers and hope to merit your continued patronage. It has always been my desire to please all, but when I get rushed generally in May and have to have help they don't have the same interest that I have and are not careful to send nothing but good tubers.

WITH BEST WISHES AND A SQUARE DEAL, I REMAIN
Most Respectfully
DR. SHIRLEY S. SHATTUCK

MY NEW INTRODUCTIONS FOR 1933

SAGAMORE YELLOW GIANT, (F. D.)— A very large flower on a great stem. 8 and 9 inches in diameter and very deep. It is a grand keeper. It is a light yellow, darker in the center and it grows lighter all the way out to the tips. It is better in every over Queen of the Garden Beautiful. It is very striking. Petals are very wide and the flower makes you think of a large pond lily.

Tubers \$10.00; Plants \$5.00

SAGAMORE PURPLE (F. D.)— A very large, heavy compact flower with great depth. Color true purple with lighter shadings. Does not fade and has heavy leathery foliage.

Tubers \$7.00; Plants \$3.50

SCARLET TANAGER (F. D.)— The best scarlet I have seen to date. Very large and deep on good stem. This is a winner as it does not fade and keeps well. Only a few tubers for sale.

Tubers \$10.00; Plants \$5.00

WHITE QUEEN (Cac.)— This is a most wonderful flower. It is the largest true cactus to date. Grows to nine inches, and very deep. It is absolutely a pure clean white and will keep five days. Created a great deal of comment at my gardens this past season.

Tubers \$7.00; Plants \$3.75

The above seedlings were not disbudded nor fed to get size. I have never had time to show my seedlings on account of my Dental Practice.

1932 INTRODUCTIONS

SAGAMORE PRINCE (F. D.) (Dr. Shattuck)— The color given at the trial gardens was carmine blended with rose red, back of petals almost cream color. The first flower comes in the crotch, the rest of the flowers have good stems. Size of the flower seven to nine inches, depth two to three and a half. Height of plant three and one-half feet. It is a late bloomer, making it come in just fine for the shows. This flower is well tested as I have grown it five years. It is one of the best flowers to keep that I have in my garden. Only a few to sell this year. Cert. at Storrs 1929. **Tubers \$5.00**

RED JACKET (F. D.)— This is a new decorative seedling that was well liked by most of those who visited my gardens this season. It has a good stiff stem, flower seven to eight inches, full and deep. Color is about the red of a veteran firemen's jacket. This has been on trial for the past three years and has grown larger each year. Height of plant is three and one-half feet. No red on the market this color. **Tubers, \$5.00; Plants \$3.75**

SUNNY DAYS (F. D.)— Another fine decorative that has proved its worth in the past six years. It is a light yellow with an orchid pink edge. The flowers are grown on a very long stem and blooms average about 8 inches. It is a profuse bloomer and keeps well. **Tubers, \$5.00; Plants, \$3.75**

PERK— This Semi Cactus Dahlia is slightly darker than Elite Glory with tougher foliage. The size being 9 to 10 inches by 5 to 5½ ins. deep. It is tall and stately with medium-large leaves. The bloom is superb as a cut flower without any trace of sun-burn or fade, all petals, including the back, holding thru-out its period of bloom.

Tubers \$7.50; Plants \$3.75

SCARLET WONDER (F. Dec.) — Scarlet and yellow, two toned petals tend to make this one of the most striking blooms; colors blending into a soft hue. Large blossoms and strong stems make this a very satisfactory flower for display purposes. Free bloomer.

Tubers \$5.00

SHAHRAZAD (I. Dec.)— A gorgeous deep pink that can not be fittingly described. Blooms are of great size and substance as well as depth. Stems straight, rigid and cane-like. This Dahlia resembles Jane Cowl in many ways a vigorous grower and well mentioned by all who have seen it.

Tubers \$8.00; Plants \$4.00

TANG (I. D.)— A bright tawny orange flame flower whose long petals roll and twist showing a golden buff reverse, gives the flower a two toned effect. Flowers are deep, full, high, centered on strong stems. Plant is rugged and the dark green foliage adds to the attractiveness of the Flowers.

Plants only \$3.50

THE COMMODORE (I. D.)— It is a brilliant lemon yellow, overlaid with a

My Introductions of 1929

PRINCE OF PILSEN. Dec. (Dr. Shattuck) One of the most Popular Dahlias in my garden. It is a flower of gigantic proportions. Color is rhodamine purple with silver reverse. Petals twist a little showing the silver which adds to its beauty. It has broad overlapping petals with twisted ends and has a fine, full center. The stiff stems are from twelve to eighteen inches long holding the flowers way above the foliage. The flower is deep and grows to eleven inches in diameter. Foliage is dark green and leathery and insects have never bothered it. Height of plant six to eight feet. This is a dandy for size and stem and for you who are looking for the big fellows this is one. Tubers all sold. **Plants only, \$5.00**

SAGAMORE BEAUTY. Dec. (Dr. Shattuck) A very handsome, deep rose pink with a small cream center. A fine cut flower and great keeper. It has a good stiff stem ten to twelve inches in length. The only times it has been shown. **Tubers \$3.00; Plants \$1.50**

ALEPPO F. Dec. (Dr. Shattuck) I believe this to be one of the best yellows on the market on account of its long, stiff stem. This Dahlia has good depth and good size. Color a pure glistening picric yellow with fine petals. Flowers are not coarse like a lot of the yellows. Beautiful formation and fine foliage. **Tubers \$7.50; Plants \$3.75**

ANGELA MIA F. Dec. (Dr. Shattuck) The most popular white in my garden this season because it has depth. Most of the whites are not full enough. This flower is like a large ball with a stiff stem. Very free bloomer with the best of foliage. Scored 84 at Storrs. **Tubers \$5.00**

MING TOY. F. Dec. (Dr. Shattuck) One of the brightest and most striking Dahlias I have seen. A regular oriental color of velvety pomegranite purple. Stiff stem, medium size, fine foliage. **Tubers \$3.50; Plants \$1.75**

Only a few tubers left. **Tubers \$7.50; Plant \$3.75**

T. A. NORRIS. F. Dec. (Dr. Shattuck) One of the most striking Dahlias in my garden. A perfect beauty that is white, shaded and tipped light vinaceous purple. The flower is a big improvement over Shudow's Lavender in color, stem, size, foliage and keeping qualities. Enough said. **Tubers \$5.00**

THREE CHEERS. F. Dec. (Dr. Shattuck) Named after Fred Stone's great show. A beauty. Tyrian rose, white tipped, cleft petals, very large and deep. A dandy to look at. Stem is good. **Tubers \$2.50**
